SUBJECT AND TITLE INDEX

Teaching and Learning in Medicine
Volume 16, 2004

Editor's note: This is an annual Subject and Author Index of all articles appearing in *Teaching and Learning in Medicine* for Volume 16, 2004. The Subject Index begins on page 399, and the Author Index begins on page 403.

We publish an annual subject and author index in the 4th issue of each volume. Refer to our website at: http://www.siumed.edu/tlm for a complete cumulative subject and author index. (Volume 1, 1989 through Volume 16, 2004).

All categories of our Subject/Title index are listed below. Categories for which there are no published articles entered for this Volume, may be viewed on our website at http://www.siumed.edu/tlm

Following are the subjects used in the Subject/Title Index:

Admissions	*	Learning	
Ambulatory care education	*	Licensure	
Area health education center	*	Medical education, broad issues	
Assessment, physicians		Medical education, international	
Assessment, residents		Medical ethics	*
Assessment, students		Medical humanities	
Biostatistics		Medical students' attitudes and values	
Career choice and career patterns		Medical students, minority	*
Clinical education		Medical students' problems or disabilities	
Clinical reasoning skills/Cognitive skills	*	Medicolegal issues	
Cognitive Science	*	Nutrition	*
Combined degree programs		Objective structured clinical examination, OSCE	*
Community medicine (see also Public health)		Obstetrics/gynecology	
Computer software	*	Pathology	*
Computers in medical education		Patient education	*
Computers in teaching and evaluation	*	Patient instructors	
Continuing medical education	*	Pediatrics	
Critical appraisal of the literature	*	Physical diagnosis courses	*
Curricula, multiple sites	*	Preclinical science	
Curriculum	*	Preventive medicine	*
Curriculum change		Primary care	*
Curriculum database	*	Problem-based learning	
Curriculum design and evaluation		Psychiatry and psychosocial skills	
Emergency medicine		Psychomotor skills	*
Evaluation, clinical		Public health (See also Community medicine)	
Evaluation methods		Research methodology	
Faculty attitudes and values		Research skills	
Faculty characteristics and skills	*	Resident teaching skills	*
Faculty development		Standardized patients	
Family medicine/family practice	*	Student characteristics and skills	
Geriatrics	*	Student disabilities	*
Graduate medical education	*	Surgery	*
Internal medicine		Teaching skills	

Assessment, physicians

Comprehensive Assessment Of Professional Competence: The Rochester Experiment (Epstein & Others) **2004, 16:**186–196

Assessment, residents

Assessing Residents' Competency In Care Management: Report Of A Consensus Conference (Frohna & Others) **2004, 16:**77–84

Assessment, students

What is the Impact of Commercial Test Preparation Courses on Medical Examination Performance? (McGaghie & Others) **2004, 16:**202–211

Biostatistics

A Call for Use of Confidence Intervals with Correlation Coefficients (Denton & Others) **2004, 16:**111–112

Comparison and Cross-Validation of Simple and Multiple Logistic Regression Models to Predict USMLE Step 1 Performance (Paolo & Others) **2004, 16:**69–73

Recommendations for Assigning Weights to Component Tests to Derive an Overall Course Grade (Kreiter & Others) **2004, 16:**133–138

Career choice and career patterns

Is a Third Year Clerkship in Emergency Medicine Correlated with a Career Choice in Emergency Medicine? (Zun & Downey) **2004, 16:**14–17

Relationship Between Specialty Choice and Medical Student Temperament and Character Assessed with Cloninger Inventory (Vaidya & Others) **2004, 16:**150–156

The Subspecialization Rate of Third Year Internal Medicine Residents from 1992 through 1998 (Grosso & Others) **2004, 16:**7–13

Clinical education

A Session of Multiple Choice Questions in the Orientation Process to the Adolescent Medicine Rotation (Harel & Others) **2004, 16:**365–367

An Intentional Modeling Process To Teach Professional Behavior (Jones & Others) **2004, 16:**264–269

Experiential Learning Influences Residents Knowledge About Hormone Replacement Therapy (Hess & Others) **2004, 16:**240–246

Introducing First-Year Medical Students To Clinical Practice By Having Them "Shadow" Third-Year Clerks (Alford & Currie) (Alford & Currie) **2004, 16:**260–263

Is a Faculty Developed Pretest Equivalent to Pre-Third Year GPA or USMLE Step 1 as a Predictor of Third-Year Internal Medicine Clerkship Outcomes? (Denton & Others) **2004, 16:**329–332

Student Observations And Ratings Of Preceptor's Interactions With Patients: The Hidden Curriculum (Thiedke & Others) **2004, 16:**312–316

The Role of Attribution to Clerk Factors and Contextual Factors in Supervisors' Perceptions of Clerks' Behaviors (Lavine & Others) **2004, 16:**317–322

Transforming a Clinical Clerkship with Team Learning (Levine & Others) **2004, 16:**270–275

Combined degree programs

Incorporating the Fourth Year of Medical School into an Internal Medicine Residency: Effect of an Accelerated Program on Performance Outcomes and Career Choice (Chang & Others) **2004, 16:**361–364

Community medicine

Students Assigned to Community Practices for Their Pediatric Clerkship Perform as Well or Better on Written Examinations As Students Assigned to Academic Medical Centers (White & Thomas) **2004, 16:**250–254

Computers in medical education

A Comparison of Faculty-Led Small Group Learning in Combination with Computer-Based Instruction versus Computer-Based-Instruction Alone on Identifying Simulated Pulmonary Sounds (Karnath & Others) **2004, 16:**23–27

Boolean Search Experience and Abilities of Medical Students and Practicing Physicians (Bronander & Others) **2004, 16:**284–289

Computer-based Testing: Initial Report of Extensive Use in a Medical School Curriculum (Peterson & Others) **2004, 16:**51–59

Evaluating Competence Using A Portfolio: A Literature Review and Web-Based Application to The ACGME Competencies (Carraccio & Englander) **2004, 16:**381–387

Evaluation of the Effect of a Computerized Training Simulator (ANAKIN) on the Retention of Neonatal Resuscitation Skills (Curran & Others) **2004, 16:**157–164

Long-Term Retention of Knowledge After a Distance Course in Medical Informatics at Charles University Prague (Naidr & Others) **2004, 16:**255–259

Curriculum change

Influence of Type of Curriculum on Students' Perceptions of the Medical Course: A Compilation of Results from the Cognitive Behavior Survey, Attitudes Toward Social Issues in Medicine Survey, and Learning Environment Questionnaire (Schwartz & Loten) **2004, 16:**123–132

Curriculum design and evaluation

Developing an Ethics Curriculum for an Internal Medicine Residency Program: Use of a Needs Assessment (Wayne & Others) **2004, 16:**197–201

Implementation And Assessment Of A Spiritual History Taking Curriculum In The First Year Of Medical School (King & Others) **2004, 16:**64–68

Medical Student Evaluations of Lectures Attended In Person or from Rural Sites via Interactive Videoconferencing (Callas & Others) **2004, 16:**46–50

Emergency medicine

Emergency Psychiatry Training for Third-Year Medical Students as Reported by Directors of Medical Student Education in Psychiatry (Townsend) **2004, 16:**247–249

Is a Third Year Clerkship in Emergency Medicine Correlated with a Career Choice in Emergency Medicine? (Zun & Downey) **2004, 16:**14–17

Evaluation, clinical

Assessment Of Knowledge And Skills In Primary Health Care Services: Senior Medical Students' Self-Evaluation (Bahar-Ozvaris & Others) **2004, 16:**34–38

Evaluation methods

Comparison and Cross-Validation of Simple and Multiple Logistic Regression Models to Predict USMLE Step 1 Performance (Paolo & Others) **2004, 16:**69–73

Evaluating Competence Using A Portfolio: A Literature Review and Web-Based Application to The ACGME Competencies (Carraccio & Englander) **2004, 16:**381–387

Recommendations for Assigning Weights to Component Tests to Derive an Overall Course Grade (Kreiter & Others) **2004, 16:**133–138
The Effects of Task Sequence on Examinee Performance (McKinley & Boulet) **2004, 16:**18–22

Faculty attitudes & values

The Departmental Advisor's Effect on Medical Students' Confidence When the Advisor Evaluates or Recruits for Their Own Program During the Match (Miller & Others) **2004, 16:**290–295

Faculty development

A Faculty Development Program Evaluation: From Needs Assessment to Long-Term Effects of the Teaching Skills Improvement Program (Bahar-Ozvaris & Others) **2004, 16:**368–375
A Practical Method for Increasing Scholarly Activity in an Academic Family Medicine Department (Coleridge & Others) **2004, 16:**181–185
Cross-Cultural Faculty Development: Initial Report of An American/Russian Experience (Wong & Agisheva) **2004, 16:**376–380

Internal medicine

A Comparison of Faculty-Led Small Group Learning in Combination with Computer-Based Instruction versus Computer-Based-Instruction Alone on Identifying Simulated Pulmonary Sounds (Karnath & Others) **2004, 16**:23–27
A Resident Research Director Can Improve Internal Medicine Resident Research Productivity (Durning & Others) **2004, 16:**279–283
Comparison of Scholarly Productivity of General and Subspecialty Clinician-Educators in Internal Medicine (Kempainen & Others) **2004, 16:**323–328
Developing an Ethics Curriculum for an Internal Medicine Residency Program: Use of a Needs Assessment (Wayne & Others) **2004, 16:**197–201
Incorporating the Fourth Year of Medical School into an Internal Medicine Residency: Effect of an Accelerated Program on Performance Outcomes and Career Choice (Chang & Others) **2004, 16:**361–364
Is a Faculty Developed Pretest Equivalent to Pre-Third Year GPA or USMLE Step 1 as a Predictor of Third-Year Internal Medicine Clerkship Outcomes? (Denton & Others) **2004, 16:**329–332

Learning

Influence of Type of Curriculum on Students' Perceptions of the Medical Course: A Compilation of Results from the Cognitive Behavior Survey, Attitudes Toward Social Issues in Medicine Survey, and Learning Environment Questionnaire (Schwartz & Loten) **2004, 16:**123–132
"Learning by Teaching" A Peer-Teaching Model For Diversity Training In Medical School, (Tang & Others) **2004, 16**:60–63
Retention of Basic Science Knowledge: A Comparison Between Body System-Based and Clinical Presentation Curricula (Woloschuk & Others) **2004, 16:**116–122
Telephone Precepting: The Development Of A Curriculum (Lamb) **2004, 16:**276–278
Transforming a Clinical Clerkship with Team Learning (Levine & Others) **2004, 16:**270–275

Licensure

Comparison and Cross-Validation of Simple and Multiple Logistic Regression Models to Predict USMLE Step 1 Performance (Paolo & Others) **2004, 16**:69–73

Medical education, broad issues

"Profession" A Working Definition for Medical Educators (Cruess & Others) **2004, 16:**74–76
Arts-Related Activities Across U.S. Medical Schools: A Follow-Up Study (Rodenhauser & Others) **2004, 16:**233–239
Effect Of Race On Ratings Of Hypothetical Candidates For A Research Scholarship/Research Assistant Position (Long & Others) **2004, 16:**355–360
Low Attendance By Basic Science Educators at Medical Education Meetings (Weaver & Others) **2004, 16:**306–311
Teaching, Digression, and Implicit Curriculum (Bardes) **2004, 16:**212–214
The Departmental Advisor's Effect on Medical Students' Confidence When the Advisor Evaluates or Recruits for Their Own Program During the Match (Miller & Others) **2004, 16:**290–295

Medical education, international

A Comparison of Students Who Chose a Traditional or a PBL Curriculum after Failing Year 2 in the Traditional Curriculum: A Unique Case Study at the Nelson R. Mandela School of Medicine (McLean) **2004, 16:**301–303
Attitudes of Chinese Medical Students towards the Global Minimum Essential Requirements Established by the Institute for International Medical Education (Zhang & Others) **2004, 16:**139–144
Cross-Cultural Faculty Development: Initial Report of An American/Russian Experience (Wong & Agisheva) **2004, 16:**376–380
Effect of Religious Practices of Ramadan on Sleep and Perceived Sleepiness of Medical Students (Margolis & Reed) **2004, 16:**145–149

Medical humanities

Arts-Related Activities Across U.S. Medical Schools: A Follow-Up Study (Rodenhauser & Others) **2004, 16:**233–239

Medical students' attitudes and values

Effect of Year in School on Medical Students' Perceptions Evaluated with the Cognitive Behavior Survey, Attitudes Toward Social Issues in Medicine Survey, and Learning Environment Questionnaire (Schwartz & Loten) **2004, 16:**333–344
Medical Students' Experience of Academic Review and Promotions Committees (Wear & Others) **2004, 16:**226–232

Medical students' problems or disabilities

A Review of Medical School Records to Investigate the Effectiveness of Enrichment Programs for 'At Risk' Students (Tekian & Hruska) **2004, 16:**28–33
Effect of Religious Practices of Ramadan on Sleep and Perceived Sleepiness of Medical Students (Margolis & Reed) **2004, 16:**145–149
Medical Students' Experience of Academic Review and Promotions Committees (Wear & Others) **2004, 16:**226–232

Medicolegal issues

Self-Reported Assessment by Medical Students and Interns of Unprofessional Practice (Rizk & Elzubeir) **2004, 16:**39–45

Obstetrics/gynecology

Evaluation of the Effect of a Computerized Training Simulator (ANAKIN) on the Retention of Neonatal Resuscitation Skills (Curran & Others) **2004, 16:**157–164

Patient insructors

Teaching the Musculoskeletal Examination: Are Patient Educators as Effective as Rheumatology Faculty? (Humphrey-Murto & Others) **2004, 16:**175–180

Pediatrics

A Session of Multiple Choice Questions in the Orientation Process to the Adolescent Medicine Rotation (Harel & Others) **2004, 16:**365–367

Evaluation of the Effect of a Computerized Training Simulator (ANAKIN) on the Retention of Neonatal Resuscitation Skills (Curran & Others) **2004, 16:**157–164

Students Assigned to Community Practices for Their Pediatric Clerkship Perform as Well or Better on Written Examinations As Students Assigned to Academic Medical Centers (White & Thomas) **2004, 16:**250–254

Preclinical science

Low Attendance By Basic Science Educators at Medical Education Meetings (Weaver & Others) **2004, 16:**306–311

Retention of Basic Science Knowledge: A Comparison Between Body System-Based and Clinical Presentation Curricula (Woloschuk & Others) **2004, 16:**116–122

Problem-based learning

A Comparison of Students Who Chose a Traditional or a PBL Curriculum after Failing Year 2 in the Traditional Curriculum: A Unique Case Study at the Nelson R. Mandela School of Medicine (McLean) **2004, 16:**301–303

Assessing Practice-based Learning and Improvement (Lynch & Others) **2004, 16:**85–92

Effect of Year in School on Medical Students' Perceptions Evaluated with the Cognitive Behavior Survey, Attitudes Toward Social Issues in Medicine Survey, and Learning Environment Questionnaire (Schwartz & Loten) **2004, 16:**333–344

Influence of Type of Curriculum on Students' Perceptions of the Medical Course: A Compilation of Results from the Cognitive Behavior Survey, Attitudes Toward Social Issues in Medicine Survey, and Learning Environment Questionnaire (Schwartz & Loten) **2004, 16:**123–132

Retention of Basic Science Knowledge: A Comparison Between Body System-Based and Clinical Presentation Curricula (Woloschuk & Others) **2004, 16:**116–122

Psychiatry and psychosocial skills

Emergency Psychiatry Training for Third-Year Medical Students as Reported by Directors of Medical Student Education in Psychiatry (Townsend) **2004, 16:**247–249

Medical Student Training in Domestic Violence: A Comparison of Students Entering Residency Training in 1995 and 2001 (Miller & Others) **2004, 16**:3–6

Public health/community medicine

Medical Student Training in Domestic Violence: A Comparison of Students Entering Residency Training in 1995 and 2001 (Miller & Others) **2004, 16**:3–6

Research methodology

A Call for Use of Confidence Intervals with Correlation Coefficients (Denton & Others) **2004, 16:**111–112

Comparison and Cross-Validation of Simple and Multiple Logistic Regression Models to Predict USMLE Step 1 Performance (Paolo & Others) **2004, 16**:69–73

Research skills

A Practical Method for Increasing Scholarly Activity in an Academic Family Medicine Department (Coleridge & Others) **2004, 16:**181–185

A Resident Research Director Can Improve Internal Medicine Resident Research Productivity (Durning & Others) **2004, 16:**279–283

Comparison of Scholarly Productivity of General and Subspecialty Clinician-Educators in Internal Medicine (Kempainen & Others) **2004, 16:**323–328

Standardized patients

Effects Of A Disability Awareness And Skills Training Workshop On Senior Medical Students As Assessed With Self Ratings And Performance On A Standardized Patient Case (Saketkoo & Others) **2004, 16:**345–354

Have Standardized Patient Examinations Stood the Test of Time and Experience? (Williams) **2004, 16:**215–222

Taking Standardized Patient-based Examinations To The Next Level (Petrusa) **2004, 16:**98–110

The Effects of Task Sequence on Examinee Performance (McKinley & Boulet) **2004, 16:**18–22

The Physical Examination Of Patients With Abdominal Pain: The Long-Term Effect Of Adding Standardized Patients And Small Group Feedback To A Lecture Presentation (Fletcher & Others) **2004, 16:**171–174

Student characteristics and skills

Effect of Gender, Age, and Relevant Course Work on Attitudes Toward Empathy, Patient Spirituality, and Physician Wellness (DiLalla & Others) **2004, 16:**165–170

Relationship Between Specialty Choice and Medical Student Temperament and Character Assessed with Cloninger Inventory (Vaidya & Others) **2004, 16:**150–156

The Role of Attribution to Clerk Factors and Contextual Factors in Supervisors' Perceptions of Clerks' Behaviors (Lavine & Others) **2004, 16:**317–322

Teaching skills

A Faculty Development Program Evaluation: From Needs Assessment to Long–Term Effects of the Teaching Skills Improvement Program (Bahar-Ozvaris & Others) **2004, 16:**368–375

An Intentional Modeling Process To Teach Professional Behavior (Jones & Others) **2004, 16:**264–269

"Learning by Teaching" A Peer-Teaching Model For Diversity Training In Medical School, (Tang & Others) **2004, 16**:60–63

Teaching, Digression, and Implicit Curriculum (Bardes) **2004, 16:**212–214

Telephone Precepting: The Development Of A Curriculum (Lamb) **2004, 16:**276–278
